BIM 360 Platform & Subscriptions

AUTODESK® BIM 360™

DOCS

For all project stakeholders who need controlled access to information

DESIGN

For teams who need to collaborate in real-time on Revit models & track deliverables

GLUE

For teams who need to coordinate multi-discipline designs across trades

BUILD

For teams who need to collaborate on work performed during construction

BIM 360 Subscription Entitlements

|	**DOCS**	**DESIGN**	**GLUE**	**BUILD**
		• Design Collaboration • Revit Cloud Worksharing	• Model Coordination	• Field Management • Project Management
		Classic Products • *Collaboration for Revit* • *BIM 360 Team*	**Classic Products** • *BIM 360 Glue* • *BIM 360 Layout* • *Navisworks / APL (25+ packs)*	**Classic Products** • *BIM 360 Field*
Single Data Repository	• Document Management	• Document Management	• Document Management	• Document Management
Dashboards & Analytics	• Project Home	• Project Home	• Project Home	• Project Home • Insight (Analytics)
Administration	Centralized account-, project- and member administration (Project Administration / Account Administration)			

BIM 360 Docs

- Controlled publishing, viewing & sharing of information

- Document control & versioning for all file types

- Perform design reviews with 2D & 3D compare and markups

- Manage contract docs & track project activity

- iOS & Android apps with offline sync
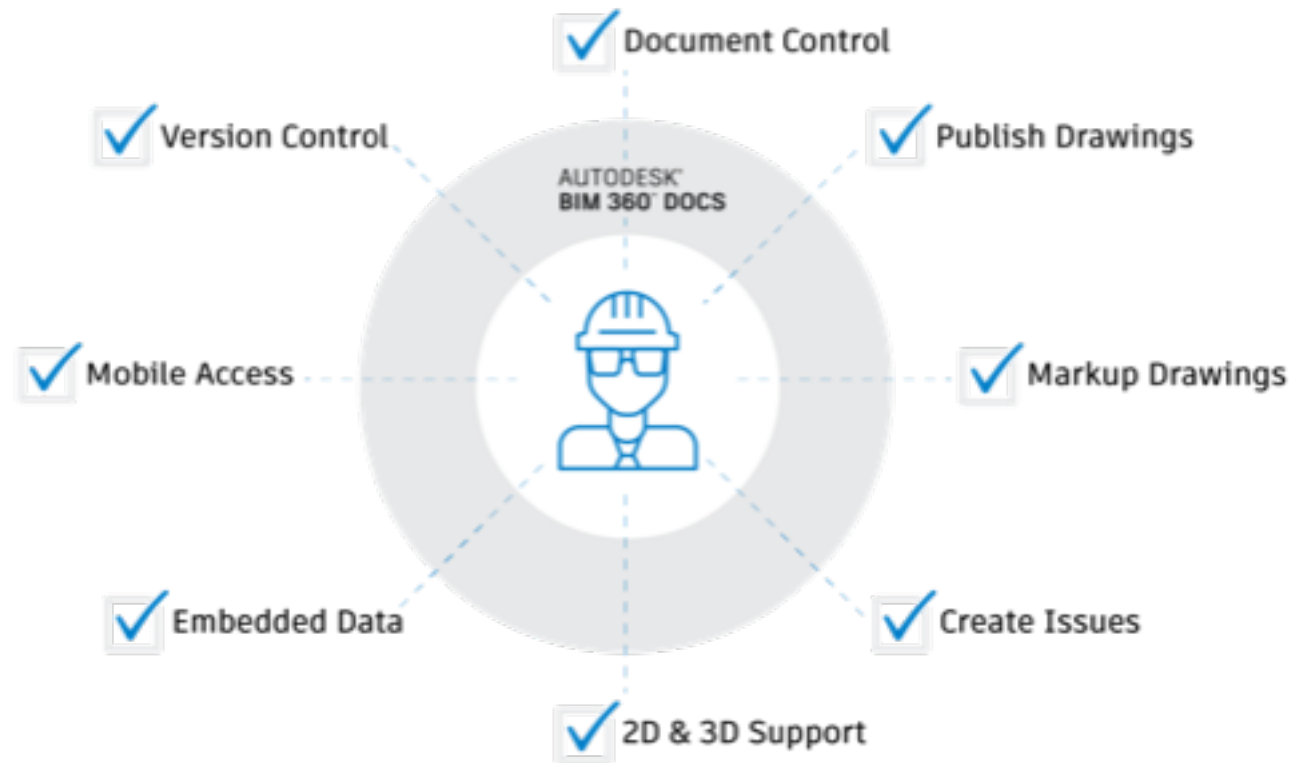

Document Management: Controlled access to all project documents, plans and models, serving as the single data repository for BIM 360.

BIM 360 Design

- Collaborate across multi-discipline design teams

- Control worksharing with granular permissions

- Track and coordinate exchange of deliverable packages

- Visualize changes between deliverables

☑ Revit Co-Authoring ☑ Deliverable Exchange

AUTODESK
BIM 360 DESIGN

☑ Team Collaboration ☑ Change Visualization

☑ Milestone Tracking ☑ Controlled Worksharing

Cloud Worksharing: Co-author Revit models in real time and review design development with the extended team at any time.

Design Collaboration: Control design deliverable exchange to keep the right information in the right hands throughout the project.

Document Management: Controlled access to all project documents, plans and models, serving as the single data repository for BIM 360.

BIM 360 Glue

- Identify costly issues through constructability reviews

- Improve trade coordination

- Automate clash detection and speed reviews
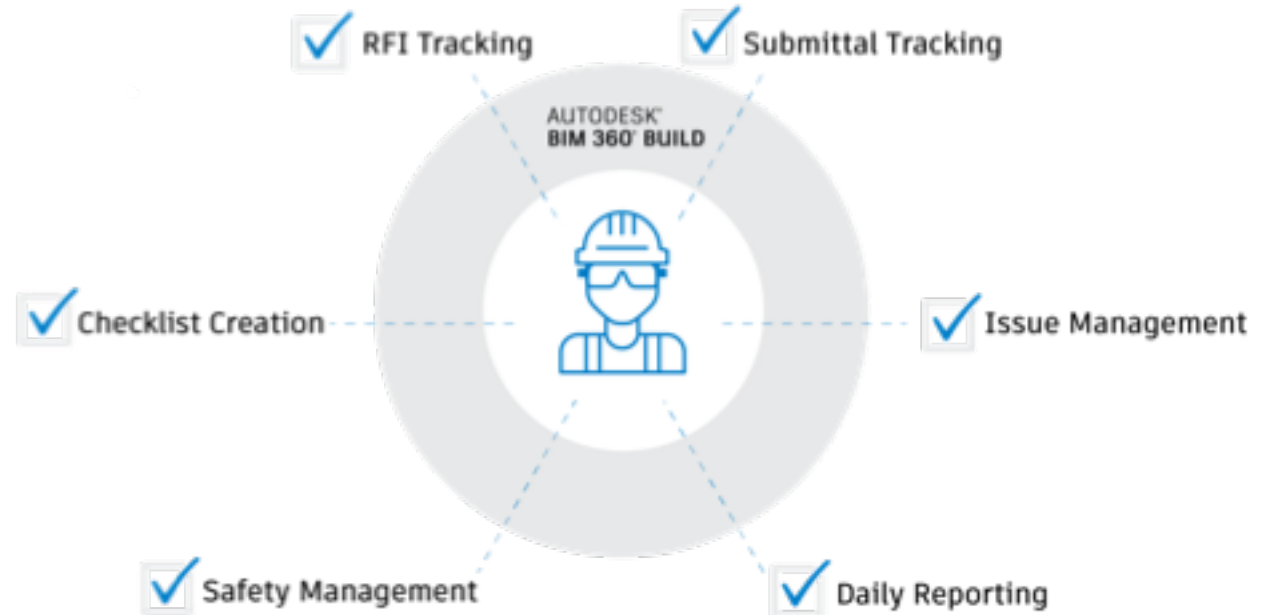

- View aggregated models and filter by discipline

✓ Clash Detection   ✓ Model Aggregation

AUTODESK
BIM 360 GLUE

✓ Version Control   ✓ Trade Coordination

✓ Round-trip Coordination   ✓ Constructability Reviews
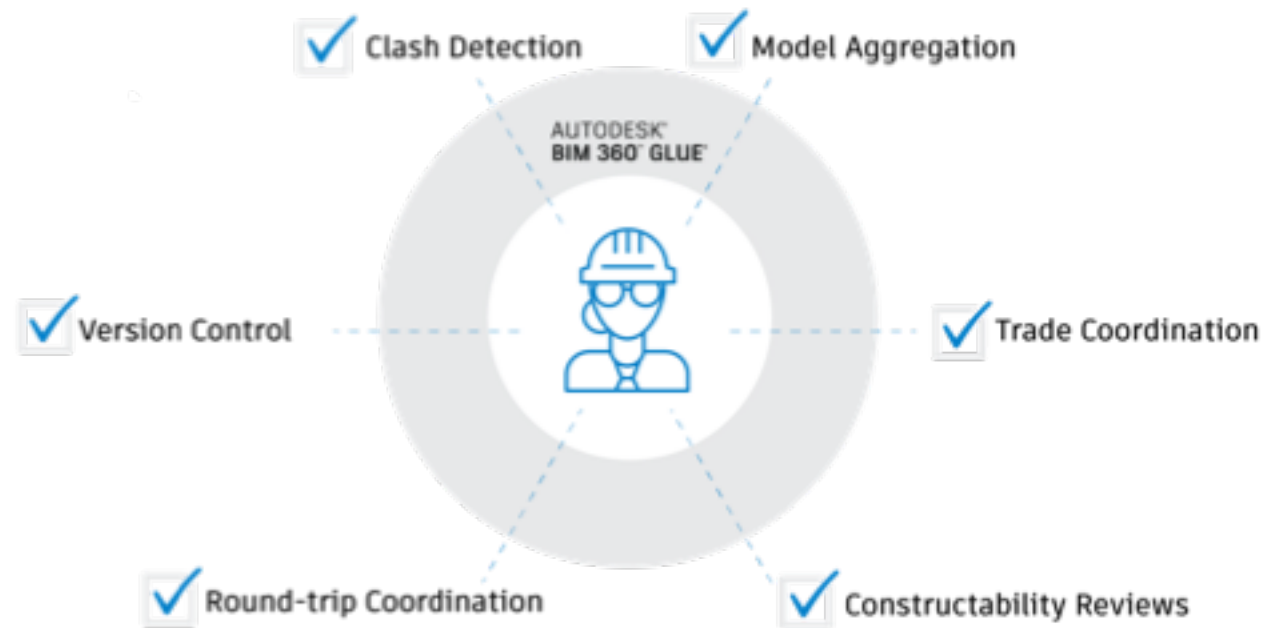

Model Coordination: For 3D projects, offers simplified model aggregation, viewing and automated clash detection

Document Management: Controlled access to all project documents, plans and models, serving as the single data repository for BIM 360.

BIM 360 Build

- Improve quality control to reduce rework

- Drive quality/safety program conformance

- Create, assign and manage issues, RFIs & Submittals

- Track field performance with daily reports & analytics

RFI Tracking

Submittal Tracking

AUTODESK
BIM 360 BUILD

Checklist Creation

Issue Management

Safety Management

Daily Reporting

Field Management: Issue management, checklists and daily reports for on-site execution and collaboration between the field and the office

Project Management: Creation, assignment and approval of RFIs & Submittals with controlled workflow processes across teams

Document Management: Controlled access to all project documents, plans and models, serving as the single data repository for BIM 360.

BIM 360 Subscription Pricing

AUTODESK® BIM 360™

DOCS — $30/user

Included modules:
- Document Management
- Project Home

DESIGN — $75/user

Included modules:
- Document Management
- Design Collaboration
- Project Home

+

- Revit Cloud Worksharing
- *Access to Collaboration for Revit & BIM 360 Team*

GLUE — $60/user

Included modules:
- Document Management
- Model Coordination
- Project Home

+

- *Access to BIM 360 Glue (Classic)*
- *BIM 360 Layout (Classic)*

BUILD — $60/user

Included modules:
- Document Management
- Project Management
- Field Management
- Insight
- Project Home

+

- *Access to BIM 360 Field*
